

The CLIMB Program™ at UB CLIMB Scholar Application

The CLIMB Program guides a select, diverse group of bioscience PhD students at UB to develop advanced skills for collaborating, communicating, mentoring and conducting research across disciplines, and accelerate their professional development. This will be accomplished through individualized mentoring and group workshop activities. CLIMB is a supplemental professional development program, so you will complete CLIMB training along with your graduate programs requirements.

Personal Statement

Write a brief but compelling, honest, and passionate personal statement in which you discuss your career goals, your research experiences and your reason for choosing your graduate program, and why you are interested in CLIMB.

Agreement and Signature

By submitting this application, I affirm that the facts set forth in it are true and complete. By signing this application, I understand that it is my responsibility to attend all CLIMB functions and educational activities to maintain my CLIMB Scholar status. I also understand that all CLIMB activities that I attend and/or participate in are above and beyond my responsibilities as a UB graduate student and other departmental activities.
